

PERGOLA RADIAL

PERGOLA RADIAL

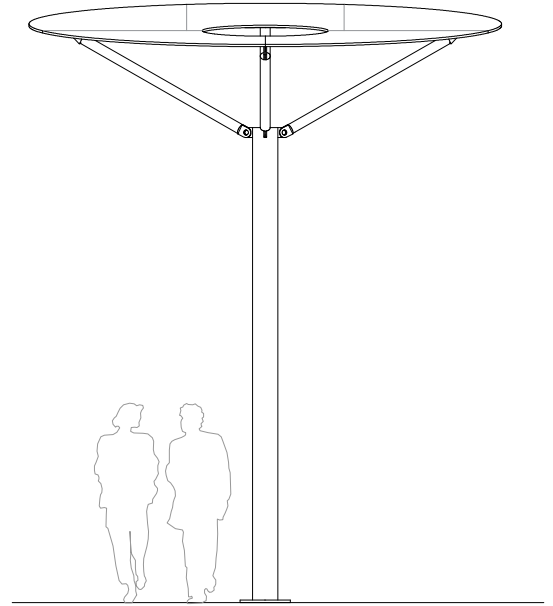

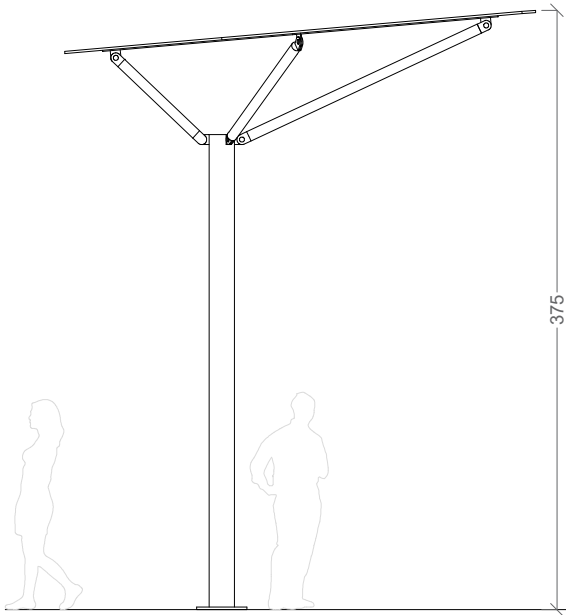

Piece of great sculptural strength that, thanks to its minimal support surface, liberalizes public space, creating shaded areas suitable for multiple uses.

The pieces are modular in nature, so large areas of shadow can be created by combining elements. Measurements in centimeters (cm).

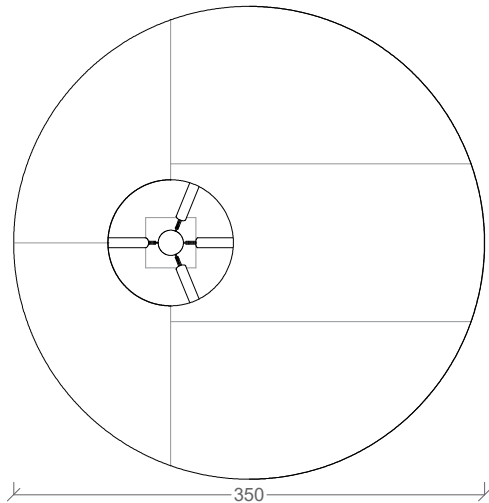

Elegant and sober pergola, which not only fulfills the function of providing shade, but also ennobles with its quality the urban space where it is located: promenades, ports, parks, squares...

Technical Specifications

Measurements in centimeters (cm)

The purity of the lines and the simplicity of meetings of the RADIAL Pergola are reinforced thanks to the materials used.

The set combines glass with zinc to achieve maximum visual and formal lightness, offering maximum protection against atmospheric agents.
