

BENCH EUCLIDEUM

BENCH EUCLIDEUM

A piece of urban furniture that illustrates the definition of a bench. Created from the simplicity and efficiency of a seat that does not pretend to stand out in the environment where it is placed. It is visually appreciated the humility of the piece in front of any external element and in a subtle way, it invites us to rest to enjoy the space to contemplate.

Elegant and sober bench, of linear forms whose greatest virtue is found in appreciating the joints of the different woods to realize that the author has wanted that even these maintain the cleanliness and purity of the piece analyzed globally. It not only fulfills the function of seat, but also ennobles with its quality the urban space where it is located: rural roads, promenades, ports, parks, squares ...

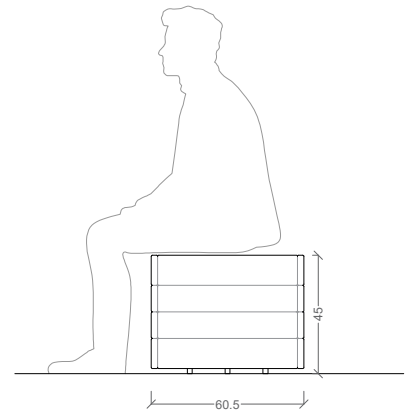

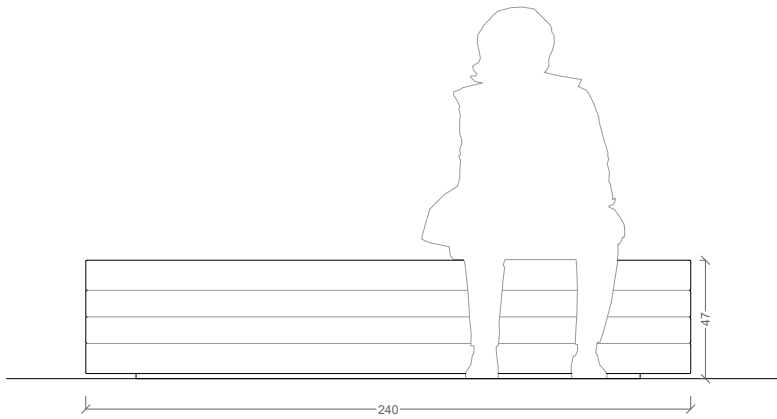

Technical Specifications

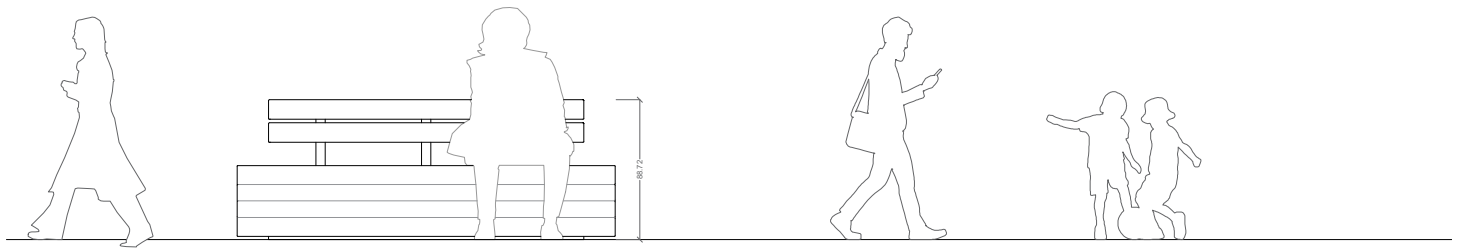

The purity of the lines and the roundness between the planes of the EUCLIDEUM bench are reinforced by the linearity of the joints of the slats that compose it.

With a minimalist design, the backrest is made of wooden slats and steel plates, offering support to half of the bench, allowing the user to rest while maintaining the aesthetics of the whole.

The piece is available without backrest.

Measurements in centimeters (cm)

Available materials and finishes

A. Wood

-  Autoclave-treated and autoclave-protected red pine, FSC-certified.
-  Tropical treated and protected, FSC certified

B. Metal

-  Steel structure with anti-rust protection
