

# BENCH SYNAPSIS

## BENCH SYNAPSIS

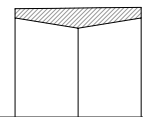

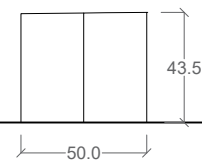

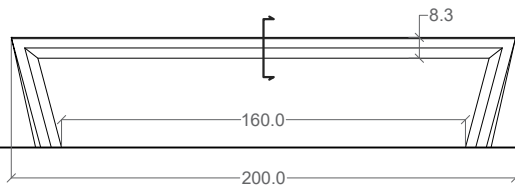

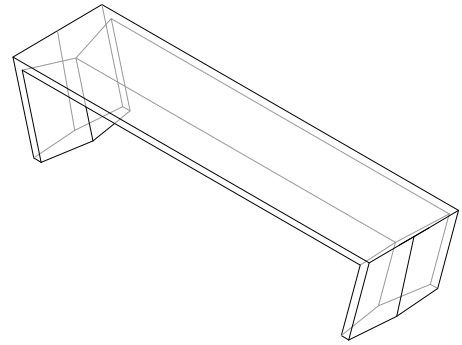

Piece of urban furniture designed for interaction scenarios in public spaces, capable of arousing emotions both in urban environments and in natural spaces. When the bench is free, it is perceived as a sculptural element.

Elegant and sober bench, with straight lines, which not only fulfills the function of seating, but also provides aesthetic value when placed in urban spaces: promenades, ports, parks, squares, roads...

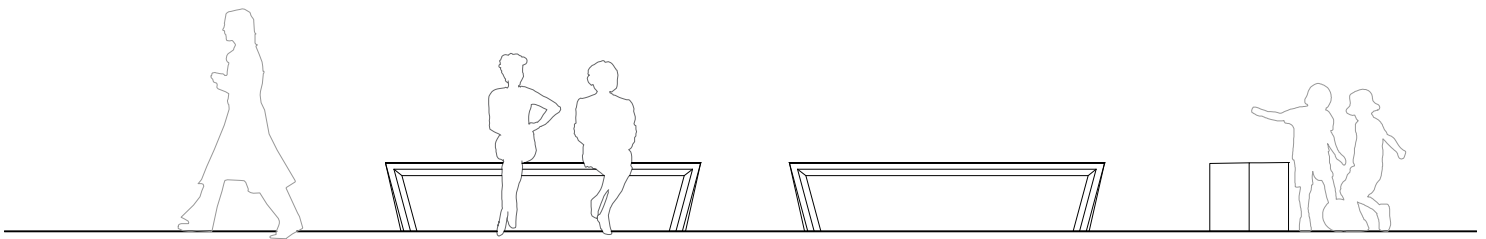

The purity of the lines and the symbiosis between straight and curved planes of the SYNAPSIS Bench reinforce the shine and textures of concrete. Urban element resistant to use and atmospheric conditions, designed to last in a comfortable and socially shared environment.

## Technical specifications

Measurements in centimeters (cm)

### Available materials and finishes

#### A. Concrete

Piece made of concrete, reinforced with steel rods, which gives it great rigidity.

- ☐ White
- ☐ Grey
