

Technical Specifications

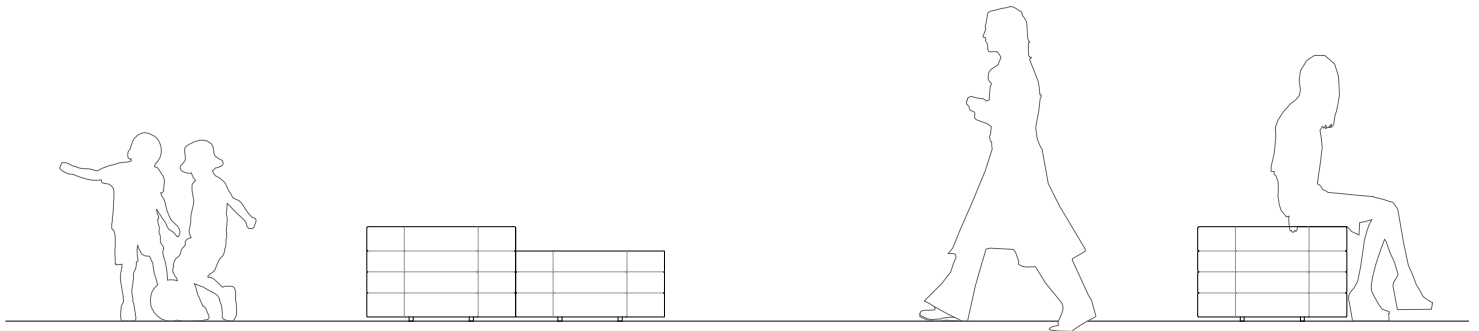

The purity of the FRACTAL bench's lines and the rotundity between planes are reinforced by perfect finishes emphasized by the joints.

Minimalist in design, its seat allows the arrangement on all sides of the piece and facilitates the interaction of people. This is caused by the elimination of the backrest and the ability of the piece to fit together with its counterparts.

The placement of several pieces in a row by joining their vertices or by means of parallel faces allows the separation of spaces while maintaining an attractive aesthetic or the creation of spaces of greater height that can also be used as a platform.

Measurements in centimeters (cm)

Available materials and finishes

A. Wood

-  Autoclave-treated and autoclave-protected red pine, FSC-certified.
-  Tropical treated and protected, FSC certified

B. Metal

-  Steel structure with anti-rust protection

Fixation

Fixing by means of a stainless steel AISI 316 rolled bar or by means of an expansion bolt, provided that the floor is compact.

Available in different heights: 35, 45, 55 cm...
