

PLANTER
MANGA

PLANTER MANGA

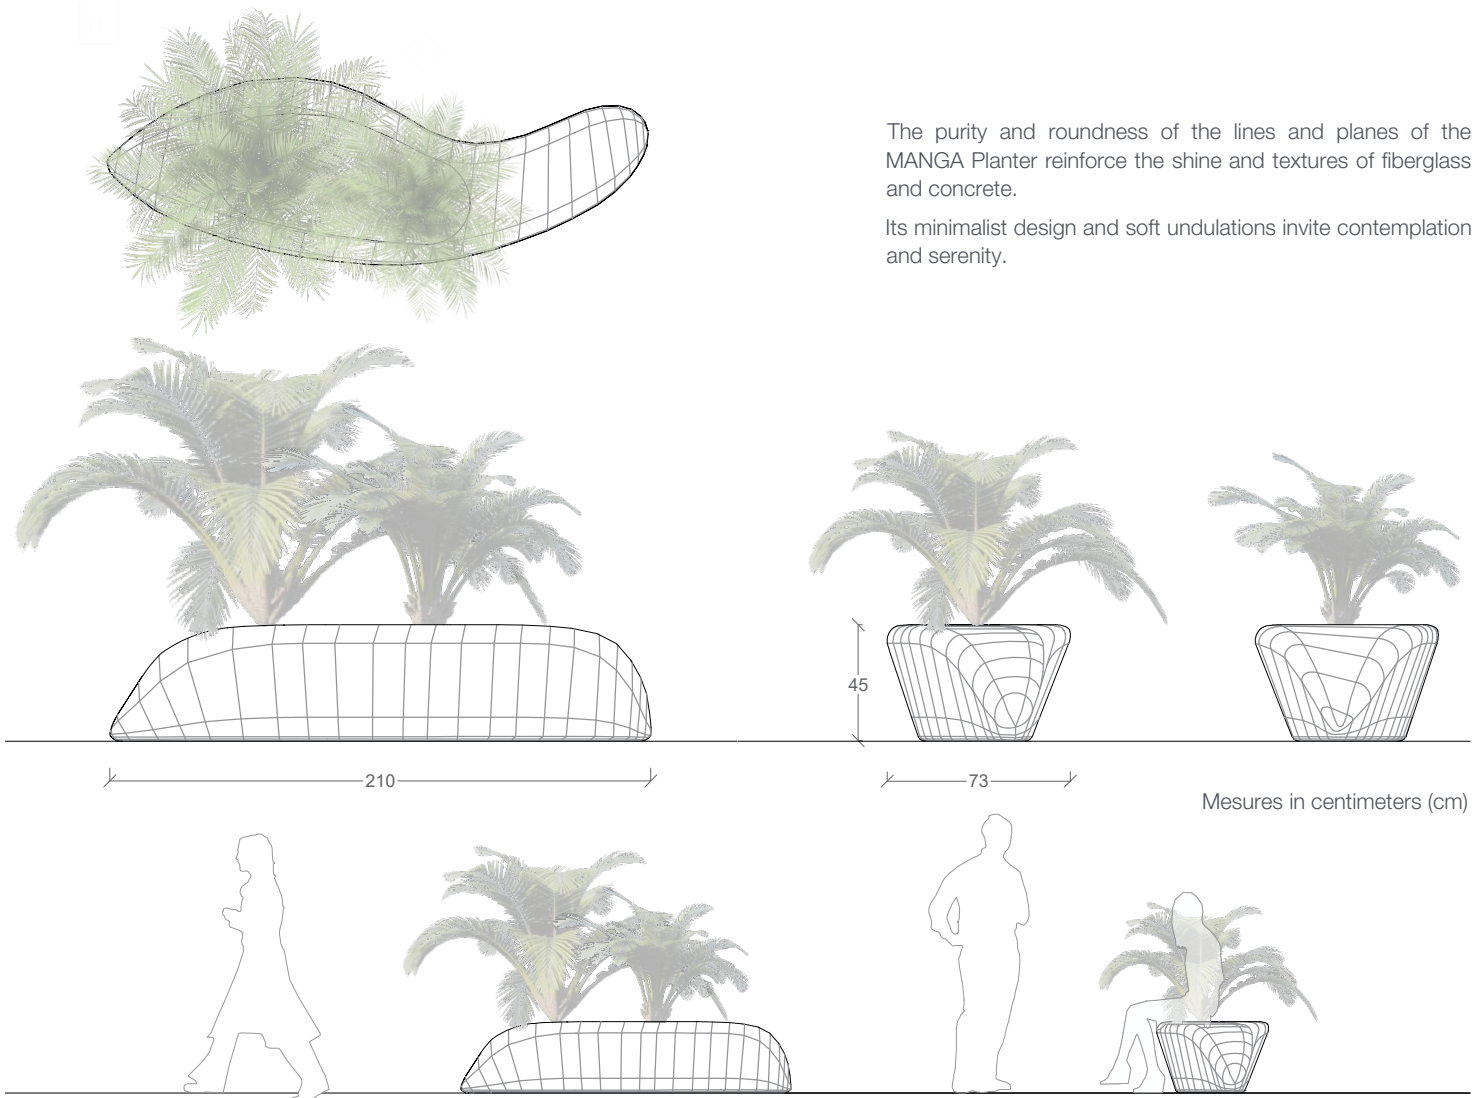

Piece of urban furniture inspired by marine life, capable of awakening emotions both in urban environments and in natural spaces. Its soft undulating shapes make it a sculptural element.

Elegant and sober planter with organic shapes, which not only fulfills the function of a planter but also ennobles with its presence the urban space where it is located: promenades, ports, parks, squares...

The planter allows you to green hard squares and spaces characterized by the absence of vegetation.

Technical Sheet

The purity and roundness of the lines and planes of the MANGA Planter reinforce the shine and textures of fiberglass and concrete.

Its minimalist design and soft undulations invite contemplation and serenity.

Available materials and finishes

A. Concrete

Element made of high quality architectural concrete / UHPC (ultra high performance concrete) which confers great plasticity and durability.
