

PERGOLA SATURNO

PERGOLA SATURNO

Modular urban element designed for solar protection.

By superimposing polyethylene slats at different levels and the design of perforations of different diameters, we achieve a play of shadows reflected on the pavement that create a changing public space.

Technical Specifications

Measurements in centimetres (cm)

The purity of the lines and joints of the SATURNO Pergola are reinforced by the materials used.

The slight slope of the upper surface allows the water to run off the outer edges of the pergola, insulating the interior and protecting the users.

Materials and finishes available

A. Cover

- Micro-perforated polyethylene boards, e= 19 mm, grey colour. grey. Polished finish

B. Structure

- Galvanised tubular steel sections with anti-rust protection
